

Using WASMA app for C4C V4

This document contains links which tell you how to use the WASMA app.

To set it up

1. Download the app from iPhone App store or the Android Play Store on to your smart device.

WARNING Please note the app contains embedded adverts at the bottom of the screen.

TAKE CARE NOT TO click on these. THE APP IS FREE at no point will you be asked for Money, Bank details, or Credit Card details.

Alternatively, you can access the app on a pc using the following link. (It is a bit slow to initiate). <https://wasma.org.au/c4c-app.html>

2. Register, this requires some personal details and details of one of your cars, (Reggo and VIN No). This must match what is on your registration papers eg if your name is William do not put down Bill.
3. Also it is very important to have something in each box otherwise it will not upload.
4. Once you submit this, we will get an email notifying us that there is a new user.
5. Once you have been authorised you will be able to see the event calendars, and add more vehicles.

Once you are up and running.

1. To Log a Club day usage run
 - a. Find the event in either the "All Events" button or the "My Club Events" button. Note all these events are sanctioned by the TSOA-WA but most of the TSOA organised events will be in the "My Club Events" area.
 - b. Tap "the view more detail".
 - c. Fill out the boxes.
2. To Log a private day usage run
 - a. Open app
 - b. click on 2nd square down on Right "New Private Use".
 - c. Complete the boxes on the screen.

WASMA App

The following links help to explain how this app works.

Note

When Installing or using the App **every** box needs to have something in it - even a full stop will do.
